

Invitation to the Research Day of the Emil Fischer Graduate Programme

Thursday 10th July 2014

Institute of Biochemistry, Fahrstrasse 17

14:00	Opening and Introduction of New efs Members	
following	Lecture	Prof. Dr. Rainer Böckmann, Erlangen <i>"Biological Membranes: An Atomistic View"</i>
15:00	Short Lecture	Stefanie Fehler, Erlangen <i>"Trapping of phenyldiazenes in cycloaddition reactions: a new synthesis of pyridazinium salts"</i>
15:15	Short Lecture	Christiane Östreicher, Erlangen <i>"Analysis of nutritive modulation of protein expression via LC-MS/MS-MRM and chemical stable isotope labeling"</i>
15:30	Coffee Break/Poster Session	
16:15	Short Lecture	Dorothee Möller, Erlangen <i>"Biased Ligands for Dopamine D2/D3 Receptors"</i>
16:30	Short Lecture	Nicole Kagermeier, Regensburg <i>"Differential signaling pathways of the hH1R and the hH2R "</i>
16:45	Lecture	Prof. Dr. Angelika Vollmar, LMU München <i>"V-ATPase - a multifaceted novel tumor target?"</i>
17:45	Poster Session	
ca. 18:30	Barbecue	

Members of all participating groups as well as guests are welcome!
